

CABLE JOINTS

Medium Voltage Joints

1 Piece Tube for use on 3 Core XLPE Cables

General Data:

Technical Data:

The three layer Heat Shrink Extrusion incorporates Independently Tested	Stress control layer Insulating layer Semi conductive layer At KEMA to GENELEC HD629.1 S2, certificate number TIC 1596-13
--	--

Typical Applications:

Ideally Suited for Straight through joint kit applications on single core and three core XLPE cables up to 12kV

Advantages:

- Installation**
- Only one heat shrink tube over the connectors for MV cable joints up to 12kV
 - Faster installation time
 - Simpler installation eliminates the possibility of partial discharge at the interface of multiple layers of heat shrink tubes as a result of incorrect installation or heat applications on single core and three core XLPE cables up to 12kV

Semi conductive layer
Red insulating layer
Stress control layer
